1. **Policy Statement**

1.1 University Hospitals Birmingham NHS Foundation Trust (the Trust) operates a zero-tolerance policy concerning the abuse of adults at risk. Any adult at risk of abuse, exploitation or neglect must be able to access support to enable them to live a life free from violence and abuse. *The Care Act 2014* provides a framework to ensure all responsible agencies work together for the protection of vulnerable adults at risk of abuse.

1.2 The Trust will not tolerate any member of staff subjecting Trust patients to any type of abuse. This will be treated as gross misconduct.

1.3 The Trust aims to create a culture of openness, raising awareness of the kinds of abuse that might occur and where all staff act against abuse. The abuse of adults at risk constitutes a clear infringement of their rights and freedoms as citizens. The Trust is committed to ensuring people’s individual rights and freedoms are protected and promoted through eliminating all forms of abuse.

1.4 The key objectives of this policy are:

1.4.1 to set out the principles and framework for the safeguarding of adults at risk;

1.4.2 to ensure all staff understand their roles and responsibilities in connection with safeguarding adults at risk; and

1.4.3 to ensure compliance with National and Regional Policy and Guidance related to safeguarding adults at risk.

2. **Scope**

This policy applies to all areas of the Trust and all individuals employed by the Trust including contractors, volunteers, students, locum, bank and agency staff and staff employed on honorary contracts who are involved in Trust business on and off the premises.

3. **Framework**

3.1 This section describes the broad framework for the safeguarding of adults at risk of abuse throughout the Trust. Detailed instructions and definitions of types of abuse are provided in the associated procedural documents.

3.2 The Executive Chief Nurse will approve all procedural documents associated with the policy, and any amendments to such documents, and is responsible for ensuring that such documents are compliant with this policy.
3.3 The framework for this policy is based on the Regional Safeguarding Adults Boards Policy, Protocols and Procedures, which detail the following responsibilities for NHS Hospital Trusts regarding safeguarding of Adults at risk:

3.4 Information

3.4.1 The Trust will ensure that awareness is raised within staff, patients and visitors through information available via Trust intranet, internet and information leaflets about abuse of adults at risk, giving a clear message that this is everyone’s responsibility; and

3.4.2 To have an internal safeguarding adults policy and procedure that clearly defines the responsibilities of all staff, and the actions they should take when suspicions of abuse and neglect are raised. The internal procedure must link with the regional multi-agency procedure.

3.5 Training

3.5.1 In line with the Trust Safeguarding Training Strategy, ensure that all staff/volunteers who have direct contact with adults are trained to recognise abuse and how to use the procedures in place to support the person and to alert managers; and

3.5.2 To train managers who may be responsible for making decisions about allegations of potential abuse.

3.6 Governance

3.7 All suspicions and allegations of abuse or inappropriate behaviour will be taken seriously by the Trust and responded to in line with the procedure for Managing Safeguarding Allegations Against Staff in Positions of Trust and the Disciplinary Policy and its associated site specific procedures.

3.8 Safeguarding is everyone’s business and everyone matters, and all staff and volunteers have a responsibility for reporting any suspicions or concerns of abuse or inappropriate behaviour following the Site Specific Procedures for Protecting Adults at Risk.
