

Vaccinator Questions

(to be asked by vaccinators)

Ask Administrator if they have found patient on system?

Are you well today?

Do you have a fever today?

Have you had COVID symptoms in the last 28 days?

Have you had a vaccine in the last 7 days?

Have you been involved in a COVID Vaccine trial?

Have you ever had a severe allergic reaction to any drugs or vaccine?

Have you a history of blood clot that has required treatment with blood thinning medication? (For AZ vaccine only)

Are you taking Warfarin?

Are you pregnant?

If YES - 'Are you happy you have had enough information about vaccine in pregnancy'?

If requiring further information - provide them with an information leaflet and ask them to sit to one side to read and then vaccinate if they wish to proceed

Do you consent to have the vaccine today?

Admin confirmation checkpoint: Check if a vaccine has previously been administered, the type and date given.

I will now vaccinate into the left/right arm
