Adel Mansur	3/13/2026	Yes	Sponsorship	AstraZeneca	1/1/2024	1/31/2024	1. Birmingham Regional Severe Asthma Conference sponsorship, sponsorship to fund venue and logistic support. (this is an annual conference for the region severe asthma service to strengthen working relationship between hospitals in the region. (£614 payment for the venue) 2. Presentation at the National Leadership Conference and participation in the conference arranged by AZ (London), Talks on severe asthma, regionally and nationally, participation in the asthma medication optimisation steering group, funding for severe asthma network quality improvement project. (£8,723,00). 3. Travel expenses £330.	All activities undertaken were non-promotional with focus on research, development, peer meetings participation, services development. This did not influence prescribing patterns as my practice is conducted through standardised multidisciplinary team meetings using NICE guidelines and national guidelines putting patient best interest as centre of care. These activities reflected positively however on cross learning within our team and across the region and nationally.
Adel Mansur	3/13/2026	Yes	Sponsorship	Sanofi Aventis	1/1/2024	12/31/2024	Event registration £360 (payment towards Annual Birmingham Regional Severe Asthma Conference) Event travel and sponsorship £890 (Attending British Thoracic Society) Talks advisory board meeting fees £1,800 (range of talks on severe asthma management and participation in advisory board meeting on drug development, update on clinical trials outcomes)	The above activities were educational and contributed to keeping up to date knowledge wise, networking, peer group discussions, as well as contributing to services improvement locally and regionally through our annual conference. These did not influence my prescribing practices which is done in line with NICE and other national guidelines through standardised service MDT treatment decisions. These activities were invaluable in terms of keeping abreast with the fast development in the severe asthma speciality.

Bhadraj Basu	3/26/2026	Yes	Clinical Private Practice (for medical staff)	Create Fertility, Birmingham - B37 7 YB	9/23/2020	3/26/2026	As a Consultant Anaesthetist, I administer sedation for patients at this Fertility centre, a couple of times a month. I visit this centre every alternate Wednesday and usually spend on an average 3 - 4 hrs, providing my services. I'm appropriately remunerated for the services provided.	These sessions are carried out during my off day.

								In the role of SATU [ Senior Academic Tutor ], I mentor and support a group of Year 3 medical students from Aston Medical University. Generally, it's a group of 5 students who spend 12 weeks having their placement at Heartlands / Solihull hospitals. Every 12 weeks, a new group arrives and this occurs throughout the year, except during summer holidays. I spend about 45 mins every week, either face to face or online. I'm appropriately remunerated for this role by our Undergraduate Medical Education team.	I undertake this role when I'm free from my own clinical responsibilities.

							hospitality is included.  HEE now NHSE When I attend events (conferences/teaching) as part of my secondments we will receive hospitality sometimes in the form of lunch. We self-fund travel and car parking.  Royal College of Surgeons of Edinburgh I am in the process of writing and refining a course developed in the West Midlands but now badged by RCSEd. This process has gone on over approximately 4 years. The course is free for me to deliver in WM. When recording online material, delivering the course or meetings are required in Edinburgh, RCSEd will pay standard class travel either by train or plane and provide accommodation in the college facility for the duration of time spent in Edinburgh (if an overnight stay is required). Occasionally a meal is provided although this is uncommon. No money/gifts have ever exchanged hands. I have never claimed additional expenses to date. No hospitality has been provided in any form over the last 12 months, although we hope to deliver the course in November, when an overnight stay will be needed.	Most of this hospitality is related to my job plan roles and it is safer to be provided with lunch than take food that cannot be refrigerated, so I do not think mitigation for refreshments is required. Regarding RCSEd, I have negotiated free delivery of the course in WM and joined the college as a Fellow. Please let me know if further action is needed.

							<p>I have a potential conflict of interest with respect to my involvement with Global Prostate Solutions. Specifically, I am currently providing assistance to Global Prostate Solutions in India. This work is focused on delivering TREAT in India, where the majority of biopsies are still TRUS (rectal biopsies). I have not discussed remuneration with Global Prostate Solutions and the work is geographically separate from my responsibilities in the United Kingdom.</p> <p>However, during the course of my work for them I noticed that they are well placed to reduce the cost of the care we deliver in our Urology department making savings of around £100,000 per year. I recognise that there may be a potential for a conflict of interest.</p> <p>I am committed to acting with the utmost integrity and in the best interests of the Urology department. So, to mitigate my potential conflict, I have asked the managers, nursing staff and the junior doctors whether they agree that a switch to Surefire will be beneficial and they have agreed. Furthermore, I have invited our current provider to offer a reduction in</p>	I have invited our current provider to offer a reduction in price (but they could not match the price) and I have asked other Surefire providers to quote for us (who were unable to match the price and are known to be unreliable). These quotes were all forwarded to our management team

Rachel Marrington	1/28/2026	Yes	Hospitality	LabQuality	12/1/2025	1/28/2026	I am a member of the Labquality Days Scientific Committee. I do not receive any payment for this role. I attend one face to face meeting once a year, in February, in Helsinki - where they are based. Labquality pay for my ticket and accommodation for the meeting because I help to organise the scientific content and chair one of the sessions. The department pays for my travel to and from the meeting because it is also beneficial to the work that we do. There is no conflict with the work that is undertaken in our department, in fact it is beneficial because it allows a lot of networking opportunities with relevant stakeholders in the EQA and scientific field.	I have an agreement in place which clear states that I am only compensated for ticket and accommodation for the work that I do on this committee.

If there was a situation leading to a COI then I would absent myself from decision making in that domain. This is a secondment from my primary employer UHBFT

				My salary is part funded by the NIHR Birmingham Biomedical Research Centre. In the past 3 years I have received consultancy fees/sponsorship regarding Sjogren's Disease from: Abbvie, Aera, Amgen, Argencx, Aurinia, Bain, BMS, EcoR1, Forbion, Galapagos, Iqvia, J&J, Kiniksa, Novartis, Scitaris			My special interest is Sjogren's Disease. I get asked to give talks, attend meetings and provide consultancy advice on this topic to Pharma and other organizations. I am paid for some of these activities. I stopped doing any private medical practice in April 2025. NB I am also employed at Milton Keynes University Hospital as an NHS Consultant. I do not consider this as an applicable/relevant declaration of interest. This is a co-primary employment rather than secondary and I am not aware of any reason why this should be a conflict (please let me know if you feel otherwise)	I received payment/benefit from a pharmaceutical company but I do not prescribe relevant biologics

I negotiated a national discount with the company that was up and above the NHS contract they had agreed. I have also arranged the competitor drug from Novartis (sandostatin) to return to market after it was withdrawn over five years ago. Both these actions are saving the NHS £3+ million per annum. SERB - make telotristat that is available to NHS patients in all countries of UK other than England. I arranged for approximately 40 patients to receive this drug free of charge. There is an active process of engagement with NHSE to try and agree availability of the drug to English patients. I am not part of these discussions presently.
