# A guide for families

## **Palliative Photography Service:**

At the University Hospitals Birmingham NHS Foundation Trust, we offer a free palliative and bereavement photography service. This service may be of help to you as photographs can provide you and your family with memories lost during this time of grief.

## **If you wish to use this service:**

We can arrange to photograph your family member at rest. During this time we will capture photographs of your family member's hands. If you wish to be present during photography we can photograph you and your relative together, or include other family members hands in the photographs.

## Suggested views

Please see examples of hand photographs, we can also include our special hand–crocheted hearts, or you could include something special to you such as a wedding ring.

## Printed photographs

The photographs will be printed in black and white and presented in a photo mount.

## Further information

### Feedback:

Your feedback is important to us. If you would like to give us any feedback or need any further information please contact:
